

Classic Traditional[®]

Stair PanelSet[®]

The New England Classic[®] Stair PanelSet[®] is nothing short of ingenious. Now the idea of continuing a raised wood panel treatment from the foyer or entranceway up the stairs is not only practical, it's affordable.

To determine if the New England Classic[®] Stair PanelSet[®] works for you, select the closest unit rise and run (treads less nosing) dimension to your stairs from the chart below. If it matches with an angle on the chart, it is within the standard panel range covered by our Stair PanelSet[®]. Custom panels can also be provided for your needs outside the ranges.

Next, send us your stair dimensions by using our design service request form, and we will send you a custom design, with material list within five business days for most applications.

RUN (TREAD LENGTH LESS NOSING)

RISE HEIGHT	RUN (TREAD LENGTH LESS NOSING)							
	9"	9-1/4"	9-1/2"	9-3/4"	10"	10-1/4"	10-1/2"	10-3/4"
6-3/4"	36.9°	36.1°	35.4°					
7"	37.9°	37.1°	36.4°	35.7°				
7-1/4"	38.9°	38.1°	37.3°	36.6°	35.9°			
7-1/2"	39.0°	39.0°	38.3°	37.6°	36.9°	36.2°	35.5°	
7-3/4"	40.7°	40.0°	39.2°	38.5°	37.8°	37.1°	36.4°	35.8°
8"	41.6°	40.9°	40.1°	39.4°	38.7°	38.0°	37.3°	36.7°
8-1/4"	42.5°	41.7°	41.0°	40.2°	39.5°	38.8°	38.2°	37.5°
8-1/2"		42.6°	41.8°	41.1°	40.4°	39.7°	39.0°	38.3°

Guidelines for measuring stairs

- Measure the stairs using the guidelines below and fill out the table.
Note: Please include plan dimensions of any landings connected to stairs.
- Take the completed form to a Sales Associate for forwarding. You can also fax the form directly to us at: **931-268-4541**. You should have your Free Design and suggested material list within two to five business days.
- Contact our Customer Service department if you have questions or need assistance.
Toll Free: **888-460-6324** e-mail: customerservice@newenglandclassic.com.

<p>Step 1: Looking upward from the bottom of the stair, determine if the panels will go on the right or left side.</p> <p>Step 2: Measure tread width to the nearest 1/8".</p> <p>Step 3: Measure riser height to the nearest 1/8".</p> <p>Step 4: Measure overhang/nosing to the nearest 1/8".</p> <p>Step 5: Measure the diagonal length of the finish stringer in inches.</p> <p>Step 6: Measure the height of finish stringer (top and bottom).</p> <p>Step 7: Please include the number of risers in the stairs.</p> <p>Note: Please measure more than three steps and choose the most common measurement for the chart (steps 2, 3, 4)</p>	1. Stair Type (circle)	L R	
	2. Tread width		
	3. Riser height		
	4. Overhang/nosing		
	5. Diagonal length of stringer		
		top	bottom
	6. Height of finish stringer		
7. Number of risers
